## P R E F A C E

It has been my opportunity as a teacher and accountant for the past ten years, to make a personal study of the bookkeeping situation in general, to observe the defects in preparation shown by the average bookkeeper, to investigate the causes of these defects, and lastly to seek to remedy them. As a rule I have found the student, after pursuing the study of bookkeeping for from five to six months and in hundreds of cases a much longer period, immature in his knowledge, with no definite information on the subject and so crammed with a conglomeration of rules and theories and ambiguous explanations that he is unable to make practical use of them. He is quite unprepared to meet the every day transactions of actual business and must undergo a protracted period of what might well be termed apprenticeship before he actually becomes a competent bookkeeper.

The cause of this condition as evidenced by the statements of commercial teachers and former students and corroborated in my own experience, lies in the bookkeeping texts themselves. The main trouble with these texts lies in the fact that the student is not taught to think for himself. No attempt is made to explain logically the disposition of the various kinds of transactions and the student is expected to master the subject merely by memorizing and imitating the work set forth in the text. It is little wonder, considering how complicated and how filled with superfluous matter these works are, that the average mind is unable to grasp and retain those points which are truly essential.

Dissatisfied with existing bookkeeping texts, I wrote Simplified Bookkeeping in order to meet the needs of my classes. Originally, my intention was to write merely for use in my own work but so successful have my methods proved, that I have been induced to put them in book form. The ideas embodied in Simplified Bookkeeping are thus not experimental but the proved results of my experience both as a teacher and an accountant.

### SOME OF THE SALIENT FEATURES OF SIMPLIFIED BOOKKEEPING

1. One simple rule of not more than fifteen words, which can be learned in ten minutes, decides and disposes of every different kind of transaction. This eliminates weeks and months of useless memorizing and at the same time gives the student something of infinitely greater value; for by means of this rule he is prepared for any kind of transaction which may arise.

2. It can be mastered by any person of average intelligence in forty hours, without any assistance and in such a practical manner that the student can actually and intelligently keep books.

3. All books including the Journal, Purchase, Sales, Cash, Notes Payable and Notes Receivable books are used from the very beginning. They are scientifically explained, thoroughly illustrated, and their use clearly defined.

4. Drafts receive an entirely new and distinct method of treatment which enables the student to master the subject in from one to two hours.

5. Notes, like drafts, are specially treated making them easily understood.

6. Interest, Discount and Merchandise Discount are defined and treated under new and simple methods.

7. Absolutely every different point is individually illustrated, giving the student the opportunity of visualizing every detail of the work in addition to his knowledge received through the written explanations. Individual illustrations remove every chance of ambiguity and make an easy and handy reference for entries, etc.

8. Posting for the first time is given an important place. It is thoroughly explained from an entirely new angle and in such a way that posting becomes a matter of absolute accuracy instead of a doubtful procedure.

9. The trial balance is clearly and progressively treated from its simplest form. A short cut trial balance is introduced which retains all of the information of other trial balances but consumes less time in constructing.

10. The balance sheet is logically and scientifically developed. Each step is pointed out and carefully expounded.

11. Every different kind of account is thoroughly explained so that the student is able to decide instantly under what class an account should be placed.

12. The subject of account closing receives special attention so that there will be no doubt as to how to close accounts having no inventory (both financial and working accounts); how to close accounts having a resource inventory; how to close accounts having a liability inventory; how to close accounts having both resource and liability inventories.

13. The creating, developing and disposing of the loss and gain account, a subject never thoroughly presented or understood, is scientifically handled.

14. The several different rulings are illustrated and explanations concerning their use set forth.

15. The different transactions have been taken from actual business, so that the student is prepared to meet the problems which will confront him in the business world.

16. The book is so arranged that it makes a handy reference in cases of immediate need.

17. A complete and accurate set of books may be constructed by taking the transactions from any text or work and applying to them the rule, instructions, etc., set forth in Simplified Bookkeeping.

THE AUTHOR.

# SIMPLIFIED BOOKKEEPING

---

1. **Bookkeeping**:—The recording of business transactions according to prescribed rules and principles.

2. **Business Transaction**:—The exchanging of values between two or more parties.

3. **Kinds of Business Transactions**:—(a) **Complete**—where the values are exchanged by both parties at the same time. (b) **Incomplete**—where the value is given by one party and its equivalent value not received until some future time.

4. **Object**:—To show the cost of purchases, the return from sales, the loss or gain, the resources and liabilities, and the present worth of the business.

5. **Kinds**:—(a) **Single Entry**—the keeping of personal accounts only. (b) **Double Entry**—the keeping of personal, property, and expense accounts.

6. **A Debtor**:—One who has received value, and has made no equivalent return.

7. **A Creditor**:—One who has given value, and has received no equivalent return.

8. **A Debit**:—The value or debt which is owed by the debtor.

9. **A Credit**:—The value or credit which is owed to the creditor.

10. **An Account**:—The grouping together of all debits and all credits which affect a particular person, firm, corporation or thing, and placing them under their proper title.

11. **Kinds of Accounts**:—(a) **Personal**—one which affects a person, firm or corporation. (b) **Property**—one which affects that which is purchased to be sold. (c) **Expense**—one which affects that which is purchased to be used in carrying on the business, and not for the purpose of selling.

**Note**:—The property account will be known as **Merchandise**. This account may be subdivided.

**Example of Subdivided Merchandise Account**:—A firm may be dealing in feed and coal. It would be more convenient under such conditions to keep separate merchandise accounts known as **Feed** account and **Coal** account. The **Merchandise** account may be further divided into a **Purchase** account and into a **Sale** account. This further division is made for the purpose of showing the **True** amount of **Net Purchases** and **Net Sales**.

**Note**:—The **Expense** account affects such things as rent, stamps, fuel, light, heat, clerk hire, etc. This account may be subdivided.

**Example of Subdivided Expense Account**:—It is preferable, where more detailed work is required, to open special accounts with such items as rent, light, fuel, etc. These special accounts will be known as **Rent** account, **Light** and **Fuel** account, etc.

12. **RULE FOR DETERMINING WHETHER AN ITEM SHALL BE DEBITED OR CREDITED**:—THE RESULT OF A SERVICE IS DEBITED AND THE SERVICE ITSELF IS CREDITED.

**Note**:—Every transaction consists of a service and a result.

**Important**. Always apply the rule from the point of view of the **Business** in which you are engaged or in which you are about to engage.

**Important**. Before applying the rule for debit and credit, ascertain what the thing which is received and the thing which is given, are, that is, whether they come under the headings of **merchandise**, **expense**, **cash**, or **personal accounts**, etc. After this has been ascertained, apply the rule calling these things by their proper names.

## Application of the Rule for Debiting and Crediting

13. I begin business by investing the following:—Merchandise, Cash, Horse and Wagon, and Real Estate.

I perform the service for the business in that I bring into it the merchandise, cash, horse and wagon, and real estate; therefore the merchandise, cash, horse and wagon, and real estate are the results to the business. According to the rule, the service is credited. Since the service is credited and since I performed the service, it must follow that I must be credited. Again, according to the rule, the result is debited. Since the result is debited and since merchandise, cash, horse and wagon, and real estate are the results, it must follow that they must be debited. For entries see illustration No. 1.

14. I buy merchandise on account from Adam Wise.

**Note:**—On account means that the equivalent value was not given for the merchandise at the time of purchase.

Adam Wise performs the service in that he brings into my business merchandise, therefore the merchandise is the result. According to the rule, the service is credited. Since the service is credited and since Adam Wise performed the service, it must follow that Adam Wise must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since merchandise is the result, it must follow that merchandise must be debited. For entry see illustration No. 2.

Illustration No. 2.

### PURCHASE BOOK

	19-	L. F.				
Aug.	1	4	Adam Wise Inv. 7/28/19-	261	13	

15. I buy merchandise for spot cash.

**Note:**—For Spot Cash means that the money is paid for the merchandise at the time of purchase.

The cash performs the service in that it brings into my business merchandise, therefore the merchandise is the result. According to the rule the service is credited. Since the service is credited, and since cash has performed the service, it must follow that cash must be credited. Again, according to the rule, the result is debited. Since the result is

debited, and since merchandise is the result, it must follow that merchandise must be debited. For entry see illustration No. 3.

Illustration No. 3.

## PURCHASE BOOK

Aug	2	✓	19- L. F.	James Minor Bot for cash	28.50		
-----	---	---	-----------	--------------------------	-------	--	--

Note:—A check mark indicates that the item opposite it is not posted to the ledger.

## CASH

CREDIT SIDE

Aug	2	✓	19- L. F.	James Minor Bot for cash	28.50		
-----	---	---	-----------	--------------------------	-------	--	--

Note:—It should be remembered that wherever a check mark appears the item opposite it is never posted to the ledger. The thing to be debited or credited always receives its debit or credit in the posting of the sum total of the book in which it appears. This is true except in the case of the cash book when the cash balance will show the debit or credit.

16. I buy merchandise for a note.

Note:—For a Note means that at the time the merchandise is purchased a note is given.

Definition of a Note. An unconditional written promise made by one party to another to pay him or to his order or bearer a certain sum of money at a definite time.

For form of note see illustration No. 4.

Illustration No. 4.

**\$** 210<sup>25</sup> ..... **McKEESPORT, PA.** Aug 3, 19.....

Thirty days after date I promise to pay to  
 the order of Edward Jackson .....

Two hundred ten and ..... of 100 Dollars  
 at The McKeesport National Bank without defalcation  
 for value received.

No. 1 ..... Date Sept. 2, 19- ..... Your Name .....

Notes are divided into two general classes—Notes Payable and Notes Receivable.

**A Note Payable:**—A note becomes a Note Payable to the party issuing it or to the party who has to pay it.

**A Note Receivable:**—A note becomes a Note Receivable to the party who receives it or to the party who collects the money on it and does not eventually have to pay the note.

In the case I buy merchandise for a note, the note becomes a Note Payable to me, as I have issued it and will have to pay it.

In this case the Note Payable performs the service in that it brings merchandise into my business, therefore the merchandise is the result. According to the rule the service is credited. Since the service is credited and since the Note Payable performed the service it must follow that Note Payable must be credited. Again, according to the rule, the result is debited. Since the result is debited and since merchandise is the result, it must follow that merchandise must be debited. For entry see illustration No. 5.

20. I pay Adam Wise for the merchandise bought from him sometime ago. (See paragraph 14 for original transaction.)

Cash performs the service in that it liquidates or closes Adam Wise's account, therefore the closing of Adam Wise's account is the result. According to the rule the service is credited. Since the service is credited, and since cash has performed the service, it must follow that cash must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since the liquidation of closing of Adam Wise's account is the result, it must follow that Adam Wise's account must be debited. For entry see illustration No. 9.

Illustration No. 9.

				CASH	DEBIT SIDE			
Sept	4	7	Notes Receivable	Wm. Hughes' note	35	67		

24. I pay my bill, due James Hecker, for merchandise, which I purchased from him sometime ago. For paying the bill at this time he allows me a discount. (The original transaction for this is similar to the one in paragraph 14.)

**Definition for Merchandise Discount:**—A certain percentage on each dollar or fraction thereof allowed to the purchaser for paying his bills within a certain time. Of course this discount is allowed by the seller.

**IMPORTANT.** The presumption is that the purchaser pays to the seller the full amount of the bill on which he is to be allowed a merchandise discount and that the seller then returns to the purchaser the amount of the merchandise discount. This makes two transactions or two debits and two credits.

**First transaction.** I pay my bill, due James Hecker, for merchandise which I purchased from him sometime ago.

Cash performs the service in that it liquidates or closes James Hecker's account on my books, therefore James Hecker's account is the result. According to the rule, the service is credited. Since the service is credited, and since cash has performed the service, it must follow that **cash** must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since the closing of James Hecker's account is the result, it must follow that **James Hecker's account** must be debited. For entry see illustration No. 13.

Illustration No. 13.

				CASH	CREDIT SIDE			
Aug	7	8	James Hecker	Inv. 8/2/19-	128	12		

**Second transaction.** For paying the bill at this time James Hecker allows me a discount.

Remember the presumption is that the full amount of the bill is paid by the purchaser after which the seller returns to him the amount of the **Merchandise Discount**.

**Merchandise Discount** performs the service in that it brings into my business cash, (had it not been for Merchandise discount I would not have received this cash) therefore cash is the result. According to the rule, the service is credited. Since the service is credited, and since **Merchandise Discount** has performed the service, it must follow that **Merchandise Discount** must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since cash is the result, it must follow that **cash** must be debited. For entry see illustration No. 14.

Aug	7	19-	L. F. 5 Mdse Discount Jas Necker Inv 9/2/19	2	56		

25. John Watson pays me for merchandise which I sold him sometime ago. I allow him a discount.

First transaction. John Watson pays me for merchandise which I sold him sometime ago.

John Watson performs the service in that he brings into my business cash, which liquidates or closes his account on my books, therefore cash is the result. According to the rule, the service is credited. Since the service is credited, and since John Watson has performed the service, it must follow that **John Watson** must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since cash is the result, it must follow that **cash** must be debited. For entry see illustration No. 15.

Illustration No. 15.

CASH				DEBIT SIDE			
Aug	8	19-	L. F. John Watson Inv 9/3/19-	2	16	19	

Second transaction. I allow John Watson a discount.

**Note:**—If I allow John Watson a discount, then cash goes out of my business and it results in discharging my obligation known as **Merchandise Discount**.

Cash performs the service in that it discharges my obligation known as **Merchandise Discount**, therefore **Merchandise Discount** is the result. (Had it not been for **Merchandise Discount** I would not have had to pay out cash.) According to the rule the service is credited. Since the service is credited, and since cash has performed the service it must follow that **cash** must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since **Merchandise Discount** is the result, it must follow that **Merchandise Discount** must be debited. For entry see illustration No. 16.

CASH				CREDIT SIDE			
Aug	8	19-	L. F. Mdse Discount John Watson Inv 9/3/19	6	49		

26. I discount my note issued for merchandise sometime ago.

**Note:**—The original transaction of this case is similar to the case in paragraph 16.

**Definition of Discount from the PAYER'S view point:**—A sum of money allowed to the payer of a negotiable instrument (note, draft, etc.) for paying it before it is due.

**Important.** The presumption is that the payer pays the full amount of his instrument after which there is returned to him the amount of the discount.

**Note:**—The instrument is receipted or cancelled and returned to the payer by the receiver or holder, at the time of payment.

First transaction. I pay my note.

Cash performs the service for me in that it brings into my business my **Note Payable** (cancelled or receipted), therefore **Note Payable** is the result. According to the rule the service is credited. Since the service is credited, and since cash has performed the service, it must follow that **cash** must be credited. Again, according to the rule, the result is debit-

ed. Since the result is debited, and since **Note Payable** is the result, it must follow that **Note Payable** must be debited. For entry see illustration No. 17.

19-	L. F.							
Aug 10	12	Int. & Disc't	James Smith note	150				

27. I have a note, which I received for merchandise sold sometime ago, discounted.

**Definition of Discount from the RECEIVER'S or HOLDER'S view point:**—A sum of money allowed by the receiver or holder of a negotiable instrument (note, draft, etc.) for the privilege of collecting it before it is due.

**Important.** The presumption is that the receiver or holder collects the full amount of the instrument after which he returns the amount of the discount.

**Remember** that the instrument is receipted or cancelled by the receiver or holder at the time of collection, and returned to the payer.

**First transaction. I collect the money on a note.**

**Note Receivable** performs the service in that it brings into my business cash, therefore cash is the result. According to the rule, the service is credited. Since the service is credited, and since **Note Receivable** has performed the service, it must follow that **Note Receivable** must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since cash is the result, it must follow that cash must be debited. For entry see illustration No. 19.

28. I discount my note issued for merchandise sometime ago. This note is interest bearing. For form of interest bearing note see illustration No. 21.

Illustration No. 21.

**\$** 316.19                      LANCASTER, PA. Aug. 14, 19

Sixty days after date I promise to pay to  
 the order of Joseph Moran  
 Three hundred sixteen and 19/100 Dollars  
 at Pittsburgh National Bank  
 For value received with interest.      Your Name  
 No. 3                      Date Oct. 13, 19

First transaction. I pay my note. (For a similar transaction, see paragraph 26, First transaction.)

Second transaction. I pay the interest due on my note.

Definition of Interest from the BORROWER'S or PAYER'S view point:—A certain sum which must be paid by one who has borrowed money for the use of the amount borrowed.

Note:—The borrower is also the payer.

Important. Interest is an obligation which can be liquidated by payment only.

In this case, cash performs the service in that it liquidates or closes my obligation known as Interest, therefore, Interest is the result. According to the rule, the service is credited. Since the service is credited, and since cash has performed the service, it must follow that cash must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since Interest is the result, it must follow that Interest must be debited.

Third transaction. I receive the amount of the discount in cash. (For a similar transaction, see paragraph 26, Second transaction.) For the three entries in this case see illustration No. 22.

Illustration No. 22.

	29	19		Interest	Joseph Moran note	3	16	

CASH				DEBIT SIDE			
Sept	19-29	L.F. 12	Discount Joseph Moran note		75		

29. I have a note, which I received for merchandise sold sometime ago, discounted. This note is interest bearing.

First transaction. I collect the money on the note. (For a similar transaction see paragraph 27, First transaction.)

Second transaction. I collect the interest, due me, on this note.

Definition of Interest from the LENDER'S or RECEIVER'S view point:—A certain sum which must be paid to the lender of money for the use of the amount loaned.

Note:—The lender is also the Receiver or Holder.

Interest performs the service in that it brings into my business cash, therefore, cash is the result. (Had it not been for Interest I would not have received this cash.) According to the rule, the service is credited. Since the service is credited and since Interest has performed the service it must follow that Interest must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since cash is the result, it must follow that cash must be debited.

Third transaction. I pay the amount of the discount in cash. (For a similar transaction, see paragraph 27, Second transaction.) For the three entries in this case see illustration No. 23.

30. I buy stamps for cash.

Remember to ascertain what the thing is which you buy, before you analyze the transaction.

Stamps are an expense. (See paragraph 11 (C)). (See Note under paragraph 11.)

Cash performs the service in that it brings into my business stamps, which come under the heading of expense, therefore Expense will be the result. According to the rule, the service is credited. Since the service is credited, and since cash has performed the service, it must follow that cash must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since Expense is the result, it must follow that Expense must be debited. For entry see illustration No. 24.

Illustration No. 24.

CASH				CREDIT SIDE			
Aug	19-15	L.F. 14	Expense Stamps		2		

31. I pay cash for one month's rent of store room.

Rent is an expense. (See paragraph 11 (C)) (See Note under paragraph 11.)

Cash performs the service in that it brings into my business the use of a store room, which is known as rent, and which, in turn, is known as expense, therefore Expense is the result. According to the rule, the service is credited. Since the service is credited, and since cash has performed the service, it must follow that cash must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since Expense is the result, it must follow that Expense must be debited. For entry see illustration No. 25.

Illustration No. 25.

CASH				CREDIT SIDE			
Aug	16	14	Expense	One mos. rent of store room	65		

Note:—A separate account may be kept for rent. In this event, instead of calling the use of the store room expense, call it Rent. In applying the rule, the thing that will be debited, in this case, will be Rent instead of Expense. (See "Example of Subdivided Expense Account," paragraph 11.)

## DRAFTS

32. A Draft:—A written request drawn by a first party, on a second party, ordering the second party to pay a certain sum of money to a third party.

Note:—The first party is known as the Drawer, the second party, Drawee, and the third party, Payee.

Kinds of Drafts:—Sight and Time.

Sight Draft:—A draft payable on demand. For form see illustration No. 26.

Illustration No. 26.

### DRAFT AT SIGHT

\$127 <sup>6</sup> / <sub>100</sub>	BALTIMORE, MD.,	Aug 18 19
At sight Pay to the		
Order of Raymond Myers		
One hundred twenty-seven and <sup>6</sup> / <sub>100</sub> Dollars		
Value received and charge the same to account of		
To William Ables	} Edgar R Morris	
No. 1 Cly. Pa.		

Time Draft:—A draft payable so many days “after date” or “after sight.” For forms see illustrations No. 27 a b c.

Illustration No. 27a.

### DRAFT AFTER DATE

**\$100.00** ..... **PHILADELPHIA, PA.,** *Aug. 16, 19* .....

*Thirty days after date* ..... Pay to the  
Order of *William Rose* .....

*One hundred and* ..... *75/100* Dollars

*Value received and charge the same to account of*

To *James Hoke,* ..... } *B.C. Wallace*  
*No. 3.*                      *Oxford, Pa.* }

Illustration No. 27b.

### DRAFT AFTER SIGHT

**\$200.00** ..... **WELLSBORO, PA.,** *Sept. 2, 19* .....

*Twenty days after sight* ..... Pay to the  
Order of *William Wolf* .....

*Two hundred and* ..... *00/100* Dollars

*Value received and charge the same to account of*

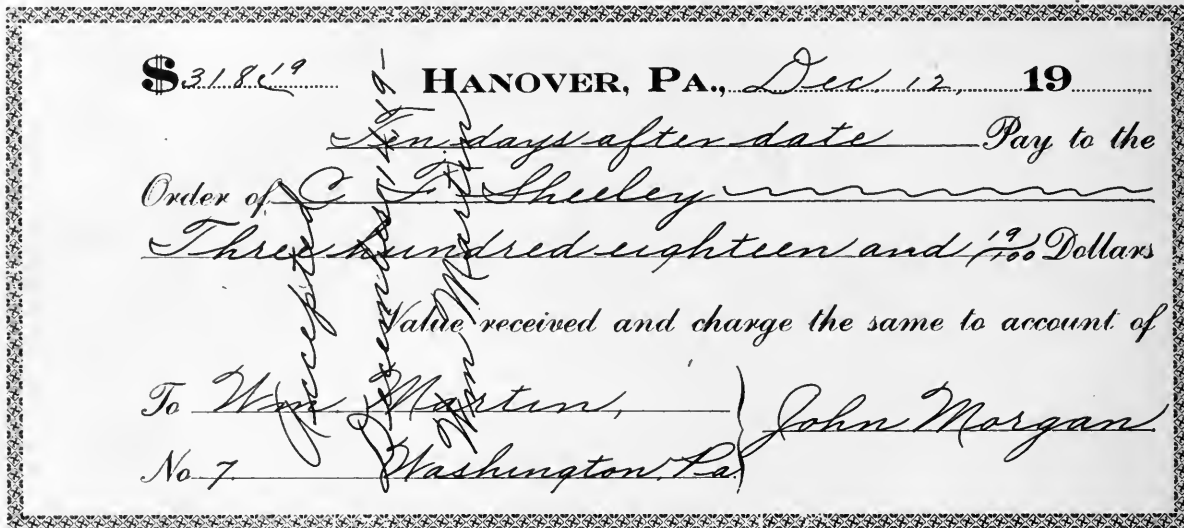

To *R.C. Barton,* ..... } *John Drummond*  
*No. 4*                      *York, Pa.* }

Note:—“After sight” means after the date of acceptance.

Acceptance:—The word “Accepted” together with the date of acceptance and the name of the Drawee, written across the face of the draft.

Important. As soon as the acceptance is written across the face of the draft, it (the draft) becomes a written promise to pay. The party who has made the promise and who must pay the instrument is the acceptor or Drawee. A written promise to pay a certain sum of money, is known as a note. (See definition for a note, paragraph 16). Therefore, to the Drawee, the accepted draft becomes a Note Payable, while to the Payee, who receives the accepted draft it becomes a Note Receivable.

## DRAFT AFTER DATE SHOWING ACCEPTANCE

BE SURE to look up illustrations Nos. 26 and 27. You will find additional valuable information.

Important. The Drawer is owed by the Drawee and the Drawee owes the Payee. I draw a time draft on Sam'l Marks in favor of Wm. Mason. Sam'l Marks accepts the draft.

Note:—In this case, Marks owes the Drawer and the Drawer owes Mason.

Marks performs the service in that he liquidates my indebtedness with Wm. Mason (on my books, Mason is credited, Marks' acceptance of the draft offsets this credit. Therefore the result is the offsetting of Mason's account), therefore Wm. Mason's account is the result. According to the rule the service is credited. Since the service is credited and since Marks has performed the service, it must follow that Marks must be credited. Again, according to the rule, the result is debited. Since the result is debited and since the liquidation of Mason's account is the result, it must follow that Mason's account must be debited. For entry see illustration No. 28.

Illustration No. 28.

## JOURNAL

Date	L. F.	Description	Debit	Credit

	9	Sam'l Marks	drawn on Mason		110
			in favor of Marks		

33. H. B. Wright draws a time draft on Me in favor of John Wood. I accept the draft.

Note:—When I accept this draft, it becomes a Note Payable to me.

Note Payable performs the service in that it liquidates my account with H. B. Wright, therefore H. B. Wright's account is the result. According to the rule the service is credited. Since the service is credited, and since Note Payable has performed the service, it must follow that Note Payable must be credited. Again, according to the rule, the result

is debited. Since the result is debited, and since the liquidation of Wright's account is the result, it must follow that H. B. Wright's account must be debited. For entry see illustration No. 29.

Illustration No. 29.

19-	Aug	18	30 days	19-									7				12	268.35			

34. Wm. Oliver draws a time draft on John Perry in favor of Me. John Perry accepts the draft.

Note:—This accepted draft becomes a note. I receive it, hence it is a Note Receivable to me.

Wm. Oliver performs the service in that he brings into my business a Note Receivable, therefore Note Receivable is the result.

Remember that while John Perry really gives me the note he does not owe me anything. Perry gives me the note at the request of Wm. Oliver, who owes me money.

According to the rule, the service is credited. Since the service is credited and since Wm. Oliver has performed the service, it must follow that Wm. Oliver must be credited. Again, according to the rule the result is debited. Since the result is debited, and since Note Receivable is the result, it must follow that Note Receivable must be debited. For entry see illustration No. 30.

ing to the rule, the result is debited. Since the result is debited, and since the liquidation or closing of Howard Ort's account is the result, it must follow that Howard Ort's account must be debited. For entry see illustration No. 33.

Illustration No. 33.

				CASH	CREDIT SIDE			
Aug.	19-	16	Howard Ort	Sight dft. Inv. 5/12/19-	98	75		

38. Edward Park draws a sight draft on Morris Town in favor of Me. The draft is presented by Me for payment.

Remember that the sight draft is the same as a check.

Edward Park performs the service in that he brings into my business cash, which liquidates or closes his account on my books, therefore cash is the result.

Remember that I have had no business relations with Morris Town and that, while Morris Town has actually given to me the money, he has done it only as a favor to Edward Park and for the purpose of liquidating or closing Park's account on my books.

The Reason why Town did this favor for Park was because Town owed Park money.

According to the rule the service is credited. Since the service is credited and since Edward Park has performed the service, it must follow that Edward Park must be credited. Again, according to the rule, the result is debited. Since the result is debited, and since cash is the result, it must follow that cash must be debited. For entry see illustration No. 34.

Illustration No. 34.

				CASH	DEBIT SIDE			
Aug.	19-	L.F.	Edward Park	Sight dft. Inv. 5/17/19	64	98		

39. I draw a sight draft on E. R. Burr in favor of Myself. The draft is presented by Me for payment.

E. R. Burr performs the service in that he brings into my business cash, therefore cash is the result. According to the rule, the service is credited. Since the service is credited, and since E. R. Burr has performed the service, it must follow that E. R. Burr must be credited. Again, according to the rule the result is debited. Since the result is debited, and since cash is the result, it must follow that cash must be debited. For entry see illustration No. 35.

Illustration No. 35.

				CASH	DEBIT SIDE			
Aug.	19-	L.F.	E. R. Burr	Sight dft. Inv. 5/16/19	102	50		

40. Important. (a) A time draft becomes a Note Payable to the party who accepts it. (b) A time draft becomes a Note Receivable to the party who holds it after acceptance.

## Payment and Collection of Time Drafts

**Maturity** means that the time given in which to fulfill a promise, has expired, and that the promise, represented in the instrument (Note or Accepted Draft), must now be fulfilled.

41. I pay a time draft (Note Payable), which was drawn on Me by William Simpson in favor of Samuel Keller.

**Note:**—When it is stated, “I pay a time draft”, etc., it will be understood that the instrument has been accepted sometime previous to the payment.

Cash performs the service in that it brings into my business my cancelled or receipted note or Note Payable, therefore Note Payable is the result. For application of the rule see paragraph 21. For a similar entry see illustration No. 10.

42. I discount a time draft (Note Payable), which was drawn on Me by John Hoe in favor of William Johnson.

**First transaction.** I pay my note (accepted draft.)

Cash performs the service in that it brings into my business my Note Payable (the draft which I accepted), cancelled or receipted, therefore Note Payable is the result. For application of the rule see paragraph 26. For a similar entry see illustration No. 17.

**Second transaction.** I receive the amount of the discount in cash. Discount performs the service in that it brings into my business cash. (Had it not been for Discount we would not have received this cash), therefore cash is the result. For application of the rule see paragraph 26. For a similar entry see illustration No. 18.

43. I collect the money for a time draft (Note Receivable), which was drawn by Carl Short on Clyde Hoke in favor of Me.

**Note:**—When it is stated, “I collect the money,” etc., it will be understood that the instrument has been accepted sometime previous to the collection.

The Note Receivable performs the service in that it brings into my business cash, therefore cash is the result. (My cancelling or receipting the note and returning it to the payer, has been instrumental in bringing into my business the cash.) For application of the rule see paragraph 23. For a similar entry see illustration No. 12.

44. I discount a time draft (Note Receivable); which was drawn by H. B. Scott on E. C. Eckles in favor of Me.

**First transaction.** I collect the money on a note. (Accepted draft.)

Note Receivable (accepted draft) performs the service in that it brings into my business cash, therefore cash is the result. For application of the rule see paragraph 27. For a similar entry see illustration No. 19.

**Second transaction.** I pay the amount of the discount in cash. Cash performs the service in that it discharges my obligation known as Discount, therefore Discount is the result. For application of the rule see paragraph 27. For a similar entry see illustration No. 20.

**Important.** Drafts are never interest bearing.

45. I buy merchandise on account from Adam Wise. See paragraph 14. I return this merchandise to Adam Wise as being unsatisfactory.

**Note:**—When merchandise is returned by you, consider it the same as if it were sold.

Merchandise performs the service in that it liquidates or closes my former indebtedness to Adam Wise, therefore the liquidation or closing of Adam Wise's account is the result. According to the rule the service is credited. Since the service is credited, and since merchandise has performed the service, it must follow that **merchandise** must be credited. Again, according to the rule the result is debited. Since the result is debited and since the liquidation or closing of Adam Wise's account is the result, it must follow that **Adam Wise's account** must be debited. For entry see illustration No. 36.

Illustration No. 36.

## JOURNAL

	19-	L. F.				
Aug 21	16		Adam Wise <i>Merch. returned as</i>	105	18	
	12		<i>Merchandise being unsatisfactory</i>			105 18

46. I sell merchandise on account to B. C. Wells. See paragraph 17. This merchandise is returned to Me by B. C. Wells as being unsatisfactory.

**Note:**—When merchandise is returned to you, consider it the same as if it were purchased.

B. C. Wells performs the service in that he brings into my business merchandise, therefore merchandise is the result. For application of the rule see paragraph 14. For entry see illustration No. 37.

Illustration No. 37.

## JOURNAL

	19-	L. F.				
Aug 21	17		Merchandise <i>Merch. returned as</i>	59	12	
	15		<i>B. C. Wells being unsatisfactory</i>			59 12

**Note:**—It is deemed more advisable, in the last two cases cited (45-46), not to place the merchandise returned under the merchandise account, as it makes that account appear as though you bought more goods, in the one case (46), and sold more goods, in the other case (45), than you really did. It would be better to place merchandise returned, therefore to an account known as **Merchandise Returned** and carry the balance, shown by this account, to the regular merchandise account, when the ledger is closed. This will have no effect on the application of the rule. For entry showing cases 45-46 placed to **Merchandise Returned** account see illustration No. 38 a and b.

Illustration No. 38a.

## JOURNAL

	19-	L. F.				
Aug 21	16		Adam Wise <i>Merch. returned as</i>	105	18

47. I buy merchandise for cash from Ralph Peterson.

For application of the rule see paragraph 15. For entry see illustration No. 3.

(a) Note:—If it is desired to keep a record of this transaction in the personal account, that is in Ralph Peterson's account, it will be necessary to divide the case into two transactions.

First transaction. I buy merchandise from Ralph Peterson.

Note:—The presumption is that you buy it on account.

For application of the rule see paragraph 14. For a similar entry see illustration No.

2.

Second transaction. I pay Ralph Peterson. (For the merchandise purchased from him in the first transaction). For application of rule see paragraph 20. For a similar entry see illustration No. 9.

(b) **Note:**—A transaction is disposed of in this manner for the purpose of ascertaining at any time the entire amount of business done with a person, firm or corporation.

It will be noticed that while two transactions are made out of this case, as shown in this paragraph, and only one transaction as shown in paragraph 15, the ultimate result will be the same. The personal account will have the same amount on each side thus liquidating or closing it. This leaves a debit in the merchandise account and a credit in the cash account. The method of handling this case, as shown in paragraph 15, only produces a debit in the merchandise account and a credit in the cash account. For comparative illustrations of these methods and for the purpose of showing the similar ultimate results, see illustration No. 40. Also illustration No. 3.

**Important.** In buying merchandise for a note from a person, firm or corporation, proceed in the same way as shown in paragraph 47, providing you wish to keep a record of the transaction in the personal account. If the record in the personal account is not desired, proceed as in paragraph 16.

48. I sell merchandise for cash to Arthur Owens.

For application of the rule see paragraph 18. For entry see illustration No. 7. See Note (a) paragraph 47. Be sure to read this note.

First transaction. I sell merchandise to Arthur Owens.

**Note:**—The presumption is that you sell it on account.

For application of the rule see paragraph 17. For a similar entry see illustration No. 6.

Second transaction. I receive cash from Arthur Owens. (For the merchandise sold to him in the first transaction). For application of the rule see paragraph 22. For a similar entry see illustration No. 11.

See note (b) paragraph 47. Be sure to read this note.

It will be noticed that while two transactions are made out of this case, as shown in this paragraph, and only one transaction as shown in paragraph 18, the ultimate result will be the same. The personal account will have the same amount on each side thus liquidating or closing it. This leaves a debit in the cash account and a credit in the merchandise account. The method of handling this case, as shown in paragraph 18, only produces a debit in the cash account and a credit in the merchandise account. For comparative illustrations of these methods and for the purpose of showing the similar ultimate results, see illustrations Nos. 41 and 7.

Illustration No. 41.

**Important.** In selling merchandise to a person, firm or corporation for a note, proceed in the same way as shown in paragraph 48, providing you wish to keep a record of the transaction in the personal account. If the record in the personal account is not desired, proceed as in paragraph 18.

49. **Negotiable notes and drafts** are those which can be transferred from one party to another by endorsement and delivery. Only those commercial papers (notes, drafts, checks, etc.) which contain the words "or order" or "or bearer" are said to be negotiable. For illustration of negotiable note, draft and check see illustrations Nos. 21, 28d, 42.

Commercial paper (notes, drafts, checks, etc.) which do not contain the words "or order" or "or bearer" are said to be non-negotiable.

**Note:**—In most states non-negotiable paper may, by statute, be transferred by assignment.

Illustration No. 42.

*Pay to E. P. Rice  
April 2, 19-- pro-  
vided he becomes  
my partner in the  
manufacturing busi-  
ness on that date.  
John Wiseman.*

### 51. I buy merchandise for a note.

**Information**:—This note was received sometime ago by me for selling merchandise.

**Remember** when this note came in, it was a note receivable (to me). It will have to remain a note receivable even though you give it to another party in payment of goods.

Note Receivable performs the service in that it brings merchandise into my business, therefore merchandise is the result. According to the rule the service is credited. Since the service is credited and since Note Receivable performed the service, it must follow that **Note Receivable** must be credited. Again, according to the rule, the result is debited. Since the result is debited and since merchandise is the result, it must follow that **merchandise** must be debited. For entry see illustration No. 48.

## PURCHASE BOOK

	19-	L. F.				
Aug	25	2	Notes Rec. L. C. White Inv. 9/24/19-	75	50	

Note:—In this case no account is kept with L. C. White. By posting directly from this book to the credit side of Notes Receivable account in the ledger, it will liquidate this particular note's original entry.

### 52. I sell merchandise for a note.

**Information:**—This note which I now receive was given (issued) by me sometime ago for merchandise which I purchased.

**Remember** when this note was issued by me it was a note payable (to me). It will have to remain a note payable even though I receive it from another party in payment of goods.

Merchandise performs the service in that it brings into my business a Note Payable, therefore Note Payable is the result. According to the rule the service is credited. Since the service is credited and since merchandise has performed the service, it must follow that **merchandise** must be credited. Again, according to the rule, the result is debited. Since the result is debited and since Note Payable is the result, it must follow that **Note Payable** must be debited. For entry see illustration No. 49.

## SALES BOOK

	19-	L. F.				
Aug	25	4	Notes Payable			
			8 doz. #1 Eggs @ 25¢	8		
			25# Lard @ 18¢	4	50	
			35 bu. Old Potatoes @ 89¢	31	15	43.65

Note:—In this case the personal account is not kept. By posting directly from this book to the debit side of Notes Payable account in the ledger, it will liquidate this particular note's original entry.

## Explanation of the Different Books to be Kept

**53. Cash Book.** This book is divided into two parts, the left side is known as the **Debit** and the right side as the **Credit** side.

All cash coming into your business is a **Result** and must be debited. This cash will therefore, be placed on the **Debit** side of the Cash Book and the name of the person, firm, corporation or thing which performs the service will be placed directly opposite the amount on the same side.

All cash which you pay out performs a **Service** and must be credited. This cash will therefore, be placed on the **Credit** side of the Cash Book and the name of the person, firm, corporation or thing, which is the result, will be placed directly opposite the amount on the same side.

It will readily be seen that, under ordinary conditions, the debit side will be larger than the credit side or equal to the credit side. It would be impossible to pay out more money (**credit side**) than you have received (**debit side**). An exception to the above would be in the case of an overdraft.

**Note:**—Journal and ledger paper is very cheap, but if you do not care to invest in it you may draw a form of the cash book on blank paper using one of the illustrations as a model.

May 1, 1915. A. B. Fowler pays you his bill in full to date \$468.20.

May 2, 1915. C. H. Carroll pays you his bill of April 20, 1915 for \$268.75.

May 3, 1915. You have in your possession a note for \$721.80 which is due today. You collect the amount.

May 5, 1915. A. R. Free pays you his account in full to date \$209.70.

May 7, 1915. D. B. Hill pays you his bill of May 1, 1915 for \$176.00.

May 8, 1915. Dean & Co. give you \$925.00 in part payment of their account.

May 9, 1915. P. M. Trainer gives you \$260.00 in part payment of his account.

May 2, 1915. You pay for stamps, etc. \$10.00.

**Note:**—See paragraph 11 before making this entry.

May 2, 1915. You give M. A. Ellis \$210.00 in payment of your invoice of May 4, 1915.

May 4, 1915. You give to A. M. Dennis \$295.00 in part payment of your account.

May 6, 1915. You give to L. C. Merrit \$644.00 in payment of your account to date.

May 7, 1915. You pay your note, which is due today, for \$420.00.

May 9, 1915. You pay \$13.00 freight on goods which you purchased sometime ago.

**Note:**—Call this account **Freight**. When you make the entry for the \$13.00, in the cash book, place the word **Freight** directly opposite the amount.

**Find the cash balance and rule the cash book as per illustration No. 50.**

#### 55. Additional entries for the cash book.

May 12, 1915. John Grover pays you his bill in full to date \$110.50.

May 12, 1915. Wm. Jones pays you his bill of \$463.18 and you allow him a 2 per cent. discount. **See paragraph 25.**

May 13, 1915. Edward Green pays you his bill of \$1219.15 and you allow him a 5 per cent. discount.

May 14, 1915. You have in your possession a note dated April 14, 1915, for \$400.00. This note is given for 60 days. You discount the note today.

May 15, 1915. You have in your possession a note dated March 26, 1915 for \$318.45. This note is given for 120 days and is interest bearing at the rate of 6 per cent. You discount it today.

May 12, 1915. You owe Edward Marks \$43.17. You pay him this amount.

May 13, 1915. You owe John Wise \$392.16. You pay him this amount and he allows you a 3 per cent. discount.

May 14, 1915. You owe James Marsh \$463.00. You pay him this amount and he allows you a 2 per cent. discount.

May 15, 1915. You discount your note which you issued for \$375.25 for 30 days. This note is dated May 11, 1915.

May 16, 1915. You discount your note which you issued for \$416.19 for 90 days. This note is interest bearing at the rate of 6 per cent., and is dated April 23, 1915.

**Note:**—If in doubt as to the application of the rule for these transactions or as to the disposition of the items in cash book, refer to the paragraph in which they are fully explained and illustrated.

**Find the cash balance and rule the cash book as per illustration No. 50.**

**56. Purchase Book.** In this book is kept the amount of merchandise purchased, for the purpose of selling, together with any merchandise invested in the business by the proprietor or proprietors. Directly opposite the amount is placed the name of the person, firm or corporation from whom the merchandise has been purchased. The term of purchase is indicated after the name of the person, firm or corporation. This book is ruled only at the end of the month.

**Note:**—The different items of merchandise which have been purchased do not appear in the **Purchase Book**, as they may be readily obtained from the invoices which you are supposed to keep filed.

**For illustration of Purchase Book showing entries see illustration No. 51.**

**57. Exercises for making entries into the Purchase Book.**

**Instructions:**—Use one side of a sheet of Journal paper or rule a blank paper similar to the rulings shown in illustration No. 51.

- May 5, 1915. You buy from John Smith merchandise \$376.18. Terms on account.
- May 5, 1915. You buy from William Jones merchandise \$264.19. Terms note 60 days.
- May 6, 1915. You buy from Carl Bates & Co. merchandise \$264.87. Terms note 90 days.
- May 7, 1915. You buy from William Hecker merchandise \$199.20. Terms cash.
- May 8, 1915. You buy from R. Rodgers merchandise \$200.00. Terms 2 per cent. 10 days.
- May 8, 1915. You buy from William Watson merchandise \$500.00. Terms 2 per cent. 10 days, net 60 days.

**Note:**—"Terms cash" simply means that cash will be paid for the goods in a few days, probably as long as from 10 to 30 days. "Spot cash" means that cash is paid just as soon as the goods are bought.

**58. Sales Book.** In this book is kept the amount of each sale of merchandise. Directly opposite the amount is placed the name of the person, firm or corporation to whom the merchandise has been sold. The terms of sale are indicated after the name of the person, firm or corporation. This book is ruled only at the end of the month.

**Note:**—The different items of merchandise sold should be placed into the Sales Book. For illustration of Sales Book showing entries see illustration No. 52.

**59. Exercises for making entries into the Sales Book.**

**Instructions:**—Use one side of a sheet of **Journal** paper or rule a blank paper similar to the rulings shown in illustration No. 52.

May 6, 1915. You sell to B. W. Keene, 200 barrels B. C. Flour at \$4.10 per barrel. Terms note at 2 months.

May 7, 1915. You sell to Garland & Co., 100 barrels of S. Flour at \$4.00 per barrel, and 300 bushels of Rye at 57c per bushel. Terms on account.

May 8, 1915. You sell to H. Dennis, 50 barrels C. Flour at \$4.75 per barrel, and 200 bushels of Rye at 60c per bushel. Terms cash.

May 9, 1915. You sell to A. B. Frey, 50 barrels of D. Flour at \$4.60 per barrel, and 300 bushels of Oats at 36c per bushel. Terms note at 20 days.

May 10, 1915. You sell to S. C. Rose, 75 bushels Rye at 57c per bushel. Terms 2 per cent 10 days, net 30 days.

**60. Notes Receivable Book.** All notes received and all drafts accepted by others in your favor will be placed into this book. See illustrations Nos. 8, 30, 31.

**61. Notes Payable Book.** All notes which you issue and all drafts which you accept will be placed into this book. See illustrations Nos. 5, 29.

**62. Journal.** This book receives only such entries which are excluded from the other books. See illustrations Nos. 1, 28, 32, 36, 37, 38, 39.

**63. Exercises for entering drafts.**

**Note:**—You will make only such entries which effect your books.

**Instructions:**—Use page one of a sheet of **Journal** paper for a **Journal**, pages 2 and 3 for a **Cash Book**. You will be able to buy a combination **Notes Receivable** and **Notes Payable Book** for a few cents; if you do not care to make this investment rule on blank paper a **Notes Receivable Book** similar to illustration No. 8 and a **Notes Payable Book** similar to illustration No. 5.

**Important.** Be sure to draw up forms of these drafts on blank paper, and write the acceptance across the face in red ink where such acceptances are indicated as having been made.

May 6, 1915. William C. Hecker of Pittsburg, Pa., has accepted your draft dated May 5, 1915, at sight, in favor of R. Hoe & Co., for \$260.00.

May 7, 1915. Edward E. Wells of Baltimore, Md., has drawn on you a draft dated May 5, 1915, at sight, in favor of James Gordan & Co., for \$450.00.

**Note:**—While a sight draft does not necessarily have to be accepted, you will accept this one.

May 8, 1915. You have received a sight draft drawn by A. Wharton & Co., of Boyton, N. J., on Samuel Nester, of York, Pa., in favor of Yourself. The draft is dated May 6, 1915, and is for \$175.00.

May 9, 1915. You draw a sight draft on Alvin Nolles, of Bayonne, N. J., in favor of Yourself, for \$400.00. The draft is dated May 7, 1915.

May 10, 1915. H. B. Calvin, of Orange, N. J., draws a sight draft on you in favor of himself for \$150.00. The draft is dated May 8, 1915.

**Note:**—You will accept this draft.

May 12, 1915. You owe D. P. Dalton \$420.00 and in payment you give him a draft drawn on H. C. Shultz, Harrisburg, Pa., at 10 days after date. Shultz accepts the draft. It is dated May 10, 1915.

May 13, 1915. E. D. Monroe, Wrightsville, Pa., draws a draft on you at 30 days after date. The draft is in favor of Simpson Bros. You accept the draft which is for \$650.00. It is dated May 12, 1915.

May 13, 1915. You receive from C. P. Roe, York Haven, Pa., a draft dated May 12, 1915, at 20 days after date. The draft is drawn on John Kirk, Syracuse, N. Y., who has accepted it.

May 14, 1915. James Donlay draws a draft on you in favor of himself at 30 days sight for \$200.00. The draft is dated May 13, 1915. You accept the draft May 14, 1915.

May 15, 1915. You draw a draft on B. A. Wells, Passaic, N. J., for \$150.00. The draft is drawn for 20 days sight. It is in favor of Yourself and is dated May 14, 1915.

May 16, 1915. You owe James Martin on account. You give him the draft of B. A. Wells. (This draft was drawn by you on Wells May 15, 1915). Martin gives you credit for the face value of the draft.

**Note:**—When Wells accepted this draft it became a **Note Receivable** to you. When you give it to Martin **Remember** that it still remains a **Note Receivable** to you.

## Work for the Student

64. **Instructions:**—Provide yourself with six sheets of **Journal** paper. Place them inside of each other so that they will resemble a book. Beginning with the outside page, number them consecutively from one up to twelve. At the top of page one write **Journal**; page two, **Cash**; page three, **Cash**; pages four, five and six, **Purchase Book**; pages seven, eight and nine **Sales Book**.

Where the single column appears on the left of each page you will draw another line beside it at the right thus forming another column. Use red ink in making this line. For a very few cents you will be able to purchase a combination **Notes Receivable** and **Notes Payable** book. If this investment is not desired, you will rule a **Notes Receivable Book** as per illustration No. 8 making about ten cross lines. You will also rule a **Notes Payable Book** as per illustration No. 29, making about ten cross lines. Provide yourself with a check book. Provide yourself with seven sheets of **Ledger** paper. Place them inside of each other so that they will resemble a book. Beginning with the outside page, number them consecutively from one up to fourteen.

September 1, 19—

65. You begin business today. The kind in which you will engage is the **Produce business**. You will handle such goods as eggs, butter, fruits, poultry, etc. You will keep your own books. You invest in this business the following:—Cash \$5000; Real Estate \$3000; Horse and Wagon \$400. See paragraph 13 and illustration No. 1.

**Note:**—The \$5000 are already in the **Student's Bank**. The **Receiving Teller** has entered this amount in your **Bank Pass Book**. See illustration No. 53. You will place the \$5000 on the stub of your **Check Book**. See illustration No. 54.

Illustration No. 53.

66. You buy from A. R. Black, 45 Market St., York, Pa., the following merchandise:—1 tub C. Butter 100 lb. @ 30c; 1 crate No. 1 Eggs, 12 doz. @ 40c; 1 crate No. 2 Eggs, 12 doz. @ 23c; 1 tub R. Lard 50 lb. @ 12½c. Terms 2/10—net 30.

**Note:**—The symbol (#) placed after a number indicates pounds. Placed before a number, it indicates number. Terms 2/10—net 30 means 2 per cent. discount if paid within 10 days or the full amount if not paid until after 10 days but within 30 days.

See paragraph 14 and illustration No. 2.

### September 2, 19—

67. You buy from R. U. Wise, 16 A Street, N. E., Washington, D. C., the following merchandise:—75 pairs # 1 Squabs @ 45c; 30 pairs # 2 Squabs @ 30c. Terms cash. See paragraph 47.

You buy from S. G. Cella, 2 Richland Ave., York, Pa.,— 15 bunches Bananas @ \$1.40; 5 boxes Oranges @ \$2.10; 1 box Grape Fruit @ \$4.25. Terms note.

You buy from O. T. House, 120 Philadelphia St., New Oxford, Pa.:—150 crates # 1 Eggs @ 20½c. Terms 1/10—net 60.

You buy from W. Wright & Co., Hanover, Pa.:—120 bu. New Potatoes @ \$1.10; 90 bu. Old Potatoes @ 73½c. Terms 2/15—net 30.

You buy from A. J. Lynn, La Bott, Pa.:—30 crates # 2 Eggs, 12 doz. @ 13¼c; 3 tubs C. Butter 360# @ 18c. Terms 3/10—net 30.

68. You will make out a check in favor of R. U. Wise, for his invoice of September 2, 1915. Deduct this amount from the stub of the check book. See illustration No. 54. Make an entry for this transaction from the Check Book Stub into the Cash Book. See paragraph 20 and illustration No. 9. Do not forget to deduct this amount on the stub of the Check Book.

### September 3, 19—

69. You sell to A. C. Gregg, 240 Market St., York, Pa., the following merchandise:— 8 doz. # 1 Eggs @ 25c; 12 doz. # 2 Eggs @ 18c; 50# C. Butter @ 28c. Terms 2/10—net 30. See paragraph 17 and illustration No. 6.

70. You sell to James Hecker, 382 Market St., Lancaster, Pa.:— 60 # C. Butter @ 28c; 112 doz. # 1 Eggs @ 25c; 72 doz. # 2 Eggs @ 19c; 30 bu. Old Potatoes @ 88¼c; 22 bu. New Potatoes @ \$1.14¾c; 15 pairs # 1 Squabs @ 63c; 7 pairs # 2 Squabs @ 48c; 5 bunches Bananas @ \$1.65; 1 box Oranges @ \$3.12; 8 Grape Fruits @ 13 1-3c. Terms draft at 20 days after date.

You sell to Stough & Musser, Front St., Harrisburg, Pa.:—2 boxes Oranges @ \$3.09. Terms cash.

You sell to D. Barrett, 19 King St., Lancaster St., Lancaster, Pa.:— 3 bunches Bananas @ \$1.70; 12 Grape Fruit @ 12c; 5 crates # 1 Eggs @ \$3.00. Terms 2/10—net 30.

You sell to S. B. Wentz, 206 Frederick St., Hanover, Pa.:—20 pairs # 1 Squabs @ 60c; 3 pairs # 2 Squabs @ 45c. Terms 2/10—note 30.

You sell to Edw. T. Lippy, 1260 Chestnut St., Philadelphia, Pa.:—75 # C. Butter @ 28c. Terms 2/10—net 30.

71. You give to S. D. Cella your note in payment of the invoice of goods purchased from him September 2, 19—. Your note is dated September 3, 19—, and is given at 30 days. For form of note see illustration No. 4.

**Explanation:**—In this case **Note Payable** performs the service in that it liquidates your indebtedness to S. D. Cella, therefore the liquidation of S. D. Cella's account is the result. According to the rule the service is credited. Since the service is credited and since **Note Payable** has performed the service, it must follow that **Note Payable** must be credited. Again, according to the rule, the result is debited. Since the result is debited and since the liquidation of Cella's account is the result, it must follow that **S. D. Cella's** account must be debited.

**Note:**—It will be noticed that in this case the personal account is kept. While in the case cited in paragraph 16 the personal account is not kept. No other entry is required for this transaction except one in the **Note Payable Book** for the note. See illustration No. 5.

September 4, 19—

72. You will make out a check for \$75 to cover three month's rent. This rent is in advance, and is on the building in which you are carrying on the **Produce Business**.

Make out this check to Joseph Jenkins.

**Note:**—In applying the rule and making the entry, you will have nothing to do with Joseph Jenkins, as you do not wish to keep an account with him.

Read paragraph 11-c, also note concerning **Expense** and **Example of Subdivided Expense Account**. Read paragraph 31. For entry see illustration No. 25. Remember this item could be called **Rent** as it is a subheading of **Expense**. Do not forget to deduct this amount on the stub of the check book.

73. Important. All entries into the cash book, for cash paid out by check, are made from the stubs of the check book. Each check issued is deducted from the balance of cash as shown on the check book stub.

74. You will make a check for the following items which you bought today:—1 Desk \$40; 3 Chairs \$8.50; 1 Clock \$5.00; 1 set Files \$5.00.

Make out this check to Wm. Dougherty.

**Note:**—In applying the rule and making the entry, you will have nothing to do with Wm. Dougherty, as you do not wish to keep an account with him.

**Note:**—These items will be known as **Furniture and Fixtures** which is a subheading of **Expense**. Remember in applying the rule, to say that **Furniture and Fixtures** is the result instead of **Expense**.

This transaction necessitates the writing of a check and making an entry into the **Cash Book**. Be sure to place this transaction on the proper side of the **Cash Book**. See illustration No. 25.

75. You will issue a check for the freight and drayage on the Desk, Chairs, etc. The amount of this check is \$9.27.

(a) **Note:**—This item will be known as **Freight and Drayage** which is a subheading of **Expense**.

Remember in applying the rule, to say that **Freight and Drayage** is the result instead of **Expense**.

Make out this check to The Hutton Transfer Co.

(b) **Note**:—In applying the rule and making the entry, you will have nothing to do with The Hutton Transfer Co., as you do not wish to keep an account with them.

September 5, 19—

76. You receive from C. A. Gregg a check in payment of the merchandise sold him September 3, 19—.

Read paragraph 25. See illustration Nos. 15-16. Be sure to read Definition for Merchandise Discount in paragraph 24.

September 6, 19—

77. You receive from Stough and Musser a check in payment of the merchandise sold them September 3, 19—.

78. You will issue a check to O. T. House in payment of the merchandise bought from him September 2, 19—. Read paragraph 24. See illustrations Nos. 13-14.

79. You receive from Samuel B. Wentz his note to cover the amount of the merchandise which you sold him September 3, 19—. The note is dated September 4, 19—, and is issued at thirty days. For form of note see illustration No. 4.

**Explanation**:—In this case Samuel B. Wentz performs the service in that he brings into my business a Note Receivable, therefore Note Receivable is the result. According to the rule the service is credited. Since the service is credited and since Samuel B. Wentz has performed the service, it must follow that **Samuel B. Wentz** must be credited. Again according to the rule, the result is debited. Since the result is debited and since Note Receivable is the result, it must follow that **Note Receivable** must be debited.

**Note**:—It will be noticed that in this case the personal account is kept. While in the case cited in paragraph 19 the personal account is not kept. No other entry is required for this transaction except one in the **Note Receivable Book** for the note. See illustration No. 8a.

80. You receive from Edw. T. Lippy a check in payment of the merchandise sold him September 3, 19—.

Do not forget the **Merchandise Discount**.

You receive from D. Barrett a check in payment of the merchandise sold him September 3, 19—.

Do not forget the **Merchandise Discount**.

**Note**:—Whenever you receive a check for merchandise sold, always refer to the **Sales Book** in order to ascertain the terms of the sale for which the money is received. Compute the amount of **Merchandise Discount** (if any), deduct this amount from the gross amount of the bill as shown in the **Sales Book**. Compare this result with the amount of the check.

81. You will draw (make out) a draft for the merchandise sold to James Hecker on September 3, 19—. Use the following data in making out this draft: Twenty days after date (see terms); payable to the order of **Myself** (payee); amount same as given in **Sales Book**; drawer (your name); drawee James Hecker.

Be sure to refer to illustration No. 27b before you draw this draft.

**Note**:—No entry will be made for this draft at this time, except a memorandum in the **Journal** showing that the draft was drawn. This memorandum is never "Posted." The amount is not extended into the money column. See illustration No. 61.

**Important**. No entry should be made by any party to a time draft except a memorandum by the **Drawer**, until the instrument is accepted, which makes it a note, and then an entry should be made by each party. In the case of a sight draft, only the memorandum

will be made by the **Drawer**, until the instrument is "honored" (paid) by the **Drawee**, at which time an entry should be made by each party.

**Remember:**—The sight draft need not be accepted.

82. You receive from D. Barrett a check in payment of the merchandise sold him September 3, 19—.

Do not forget to deduct the Merchandise Discount.

Proceed as in paragraph 76.

83. You will now deposit all cash on hand, that is you will put it into the **Student's Bank** where you have already deposited \$5000. Rule a deposit slip similar to illustration No. 55. Following are the checks which you have received: C. A. Gregg, \$17.80; Stough and Musser, \$6.18; Edw. T. Lippy, \$20.58; D. Barrett, \$21.11. Total checks, \$65.67.

**Important.** In actual business, these checks would be endorsed by you by writing your name across the back of each. See illustration No. 43. You would then take these checks and the deposit slip together with your **Bank Pass Book** to the bank where the **Receiving Teller** would take the deposit and place the amount of it in the **Pass Book**, returning the **Bank Pass Book** to you again. For illustration of **Bank Pass Book** and entry made in it by **Receiving Teller** see illustration No. 53. From the **Bank Pass Book** you would make an entry of the deposit to the stub of your check book, adding the amount to the bank balance.

For illustration showing the deposit entered on stub of check book and added to bank balance see illustration No. 54.

You will now enter the amount of your deposit (\$65.67) on the stub of your check book and add it to your bank balance.

Note:—The Journal may be kept in either of the two ways shown here.

87. **Definition of Posting:**—Transferring all items from the original books of entry (Journal, Purchase Book, Sales Book, and Cash Book) to their respective accounts in the Ledger. For definition of account read paragraph 10.

Remember that all items which are debited in the original books of entry, are debited in their respective accounts in the Ledger, and that all items which are credited in the original books of entry are credited in their respective accounts in the Ledger.

**Important.** The left-hand side of an account is the Debit side, and the right-hand side is the Credit.

88. **Definition of Ledger:**—The Ledger is the Final Book of Accounts. In it are grouped, under their appropriate titles, all of the debit and credit items from the original books of entry. See illustration No. 62 for Ledger Account.

Illustration No. 62.

## Ledger Account

89. **Journal Postings.** Turn to the first transaction in the Journal. Write the words Real Estate in the Ledger. See illustration No. 63. In the Date columns of the Ledger account, on the debit side, write Sept. 1, 19—. (See illustration No. 63.) (This is the date of the transaction as it appears in the Journal). In the Folio column (see illustration No. 62) in the Ledger account, write the number of the Journal page from which the item is taken. Place the amount (\$3000) in the Debit money column of the Ledger account. (See

Illustration No. 66.

*Merchandise*

<i>Sept 6</i>										<i>Sept 6</i>									
<i>Purchase Book 4</i>										<i>Sales Book 6</i>									
80196										21569									

91. **Sales Book Postings.** Turn to the first invoice of merchandise sold. Write the name of C. A. Gregg together with his address in the Ledger. (See illustration No. 67.) On the debit side of the Ledger account, in the Date columns, write Sept. 3, 19—. (See illustration No. 67.) (This is the date of the transaction as it appears in the Sales Book.) In the Folio column (see illustration No. 62) in the Ledger account, write the number of the Sales Book page from which the item is taken. (See illustration No. 67.) Place the amount (\$18.16) in the Debit money column of the Ledger account. (See illustration No. 67.) In the Folio column of the Sales Book place the number of the Ledger page on which you have put C. A. Gregg's account. (See illustration No. 58.)

Remember that all Sales Book items are posted to their respective Ledger accounts in the manner indicated in this paragraph.

You will now post the remaining Sales Book items.

**Posting of Total of Sales Book.** Find the total of the Sales Book. (See illustration No. 58.) Post the amount to the credit side of Merchandise account in the Ledger. (See illustration No. 66.)

Illustration No. 67.

*C. A. Gregg*

<i>Sept 3</i>																			
8										1816									

92. **Notes Receivable Book Postings.** Turn to the first note which you have received. Write the name of Sam'l B. Wentz in the Ledger. (See illustration No. 68.) On the credit side of the Ledger account, in the Date column, write Sept. 6, 19—. (See illustration No. 68.) (This is the date of the transaction as it appears in the Notes Receivable Book, in the Date Received column.) In the Folio column (see illustration No. 62) in the Ledger account, write the number of the Notes Receivable Book page from which the item is taken. (See illustration No. 68.) Place the amount (\$13.35) in the Credit money column of the Ledger account. (See illustration No. 68.) In the Folio column of the Notes Receivable Book place the number of the Ledger page on which you have put Sam'l B. Wentz's account. (See illustration No. 60.)

										1335									

**Why a Trial Balance is Taken.** A Trial Balance is taken for the purpose of showing the equality of debits and credits as posted to the different accounts in the Ledger. It also serves as initial data for the Balance Sheet.

96. **How to Take a Trial Balance.** Turn to your Ledger. Write the name of each account that has one side greater than the other. (Debit side greater than the credit, or credit side greater than the debit.) Write these names on a separate Piece of Journal Paper.

**Note:**—Do not put down the name of any account whose debit and credit sides are equal.

For an example we will take the Merchandise Discount account. (See illustration No. 74.) Total the debit and credit sides of this account in small pencil figures, then place the difference on the larger side, also in small pencil figures. (See illustration No. 74.) Transfer this amount to the Trial Balance opposite the name Merchandise Discount and in the credit or right-hand money column. (See illustration No. 75.)

Illustration No. 74.

## Merchandise Discount

**Note:**—Red Ink may be used for all rulings if desired.

## Additional Entries

The student should now endeavor to make the following entries, referring to the foregoing explanations and illustrations as little as possible.

Note:—Use the same books for the following entries that you have used for the entries from Sept. 1, 19— to Sept. 6, 19—.

September 8, 19—

97. You buy from the Maryland Dairy Co., Baltimore, Md., the following merchandise:—400 # Butter @  $26\frac{1}{4}c$ . Terms cash.

98. You will make out a check in favor of Maryland Dairy Co., for their invoice of this date.

99. You will make out a check in favor of A. R. Black, for his invoice of Sept. 1, 19—. Refer to the Purchase Book for the terms.

100. You will make out a check in favor of W. Wright and Co., for \$58.00 to apply on their invoice of Sept. 2, 19—.

Note:—As you were to be allowed 2% (% means per cent.) discount, according to the terms of the bill, you will proceed as follows in order to ascertain the amount for which you shall receive credit and the amount of the merchandise discount.

If you are allowed 2% discount, the amount that you pay represents 98%. The actual amount that you pay is \$58.00, therefore the 98% equals the \$58.00. Since you are to receive credit for 100%, and since 98% represents or is equal to \$58.00, the actual amount for which you will receive credit will be \$58.00 divided by 98% or \$59.18. Therefore \$59.18 equals 100%. Since you are credited with \$59.18 and only pay \$58.00, the difference or \$1.18 is the merchandise discount.

Entry:—In the Cash Book, on the right hand side, debit Wright & Co. with \$59.18. On the left-hand side credit Merchandise Discount with \$1.18.

101. You will make out a check in favor of A. J. Lynn for \$84.50 to apply on their invoice of Sept. 2, 19—.

Note:—Proceed as in paragraph 100.

102. You receive from James Hecker the draft which you sent him Sept. 6, 19—, for his acceptance. Hecker has accepted it. Read paragraph 35. For application of the rule, see paragraph 34. For entry see illustration No. 31.

September 9, 19—

103. You buy from S. G. Cella,—7 tubs C. Butter 700 # @  $29\frac{1}{2}c$ ; 5 crates # 2 Eggs @  $22\frac{3}{4}c$ ; 25 pairs # 1 Squabs @  $45\frac{1}{4}c$ . Terms note 10 days.

You buy from Hoyk, Bayrd & Co., Hanover, Pa.,—75 crates # 1 Eggs @ 20c; 100 crates # 2 Eggs @ 17c; 98 bu. Old Potatoes @  $72\frac{1}{4}c$ . Terms 2/10—net 30.

104. You buy from R. Hoe, 20 bu. New Potatoes @ \$1.09.

Note:—As you will pay cash for this bill and will purchase no other goods from Hoe, do not keep an account with him. Read paragraph 15. For a similar entry see illustration Nos. 3a and 3b.

September 10, 19—.

105. You discount, today, the note which you received from Samuel B. Wentz. Add the proceeds (\$13.30) on stub of Check Book.

Note:—Refer to the Notes Receivable Book for the data concerning this note. Read paragraph 27. For entries see illustrations Nos. 19 and 20.

106. You will issue a check for freight and drayage \$10.25. Make out this check to the Long Transfer Co. Read note under paragraph 75.

107. You will make out a note in favor of S. G. Cella for his invoice of Sept. 9, 19—, Date the note Sept. 9, 19—, and make it for 30 days. If necessary read paragraph 71 for entry.

September 11, 19—.

108. You sell to R. A. Cates and Sons, 106 Maine St., McSherrystown, Pa.:— 25 # Lard @ 18c; 75 doz. # 1 Eggs @ 25c; 25 bu. Old Potatoes @ 89c. Terms 3/10.

You sell to H. J. Root, 21 Platt St., Baltimore, Md.:—97 # Butter @ 28c; 240 doz. # 1 Eggs @ 25c; 60 doz. # 2 Eggs @ 19c; 20 bu. Old Potatoes @ 88 $\frac{1}{4}$ c. Terms  $\frac{1}{2}$  cash,  $\frac{1}{2}$  note 30 days.

109. You receive from H. J. Root his note to cover  $\frac{1}{2}$  of the merchandise which you sold him on this date. The note is dated September 11, 19—, and is issued at thirty days. This note bears interest at the rate of 6%. If necessary read paragraph 79 for entry.

110. You receive from H. J. Root, a check in payment of  $\frac{1}{2}$  of the merchandise which you sold him on this date. (The amount of the check is \$58.11.)

111. You will issue a check in favor of James Klunk for \$4.63. This check is in payment of repairs to your delivery wagon.

Note:—This item will be known as **Expense**.

Remember in applying the rule, to say that **Expense** is the result.

Do not keep an account with James Klunk. (See note (b) paragraph 75.)

112. You sell to Adam Gray, 2 bu. Old Potatoes @ 86c, for cash.

Note:—As Gray pays you cash for this bill and will purchase no more goods from you, do not keep an account with him. Read paragraph 18. For a similar entry see illustration Nos. 7a and 7b.

September 12, 19—.

113. You have this day purchased from A. R. Brooder the building in which you are doing business, together with the lot, for \$3000 to be paid as follows:—cash \$1500; note dated September 12, 19— at thirty days for \$1500.

(a) You will make out the check for \$1500 in favor of A. R. Brooder.

(b) You will issue the note for \$1500 in favor of A. R. Brooder. (Use the data given above.)

Note:—Do not keep an account with Brooder.

Important. In applying the rule, say that **Real Estate** is the result in both 113a and 113b.

Remember that 113a requires a **Cash Book** entry only, and that 113b requires a **Notes Payable Book** entry only.

Indicate in the **Notes Payable Book** that the note (\$1500) will be posted to the debit of **Real Estate** account, at the time of posting, instead of Brooder's account as you are not keeping an account with him.

September 13, 19—

114. Post all items from the different books to the **Ledger**. (This includes all items from Sept. 8, 19— to Sept. 13, 19—.) If necessary read paragraphs on **Postings**.

115. Deposit all cash on hand. Read paragraph 83. Following are the checks which you have received: H. J. Root, \$58.11; Adam Gray \$1.72.

116. Balance, rule and prove the **Cash Book**. Read paragraph 84.

Note:—If your **Cash Book** is correct, it will show a **Cash Balance** of \$2760.85.

Do not forget to add the **Cash Balance** of Sept. 6, 19— in with the debit side in order to obtain the **Cash Balance** of Sept. 13, 19—.

117. If your check book is correct it will contain the following:—Balance Sept. 6, 19—, \$4514.84; Proceeds from S. B. Wentz note \$13.30; Deposit \$59.83. Checks issued:—Maryland Dairy Co., \$105.00; A. R. Black, \$42.93; W. Wright & Co., \$58.01; A. J. Lynn, \$84.50; R. Hoe, \$21.80; Long Transfer Co., \$10.25; James Klunk, \$4.63; A. R. Brooder, \$1500.

Note:—The **Check Book** balance will be the same as the **Cash Book** balance.

118. If the Purchase and Sales Books are correct, they will show the following totals:  
 —Purchase, \$791.27; Sales, \$161.71.

Note:—There will be no entries in the Journal after Sept. 6, 19—.

The Notes Payable and Notes Receivable Books will show the following totals:—Notes Payable \$1731.46; Notes Receivable \$193.56.

119. You will now take a Trial Balance.

Remember that each trial balance takes into consideration every account which has one of its sides greater than the other (those accounts which do not balance), regardless of the fact that a previous trial balance has been taken. In this case, your trial balance will cover every "open" account from Sept. 1, 19— to and including Sept. 13, 19—. If necessary read paragraph 96.

120. Balance Sheet:—A written statement setting forth the losses, gains, resources, liabilities and, finally, the present worth of any specified business. See illustration No. 76.

Note:—The data for a balance sheet consists of the trial balance and any inventories.

Illustration No. 76.

						1105511	1105511

**121. Resource Inventory:**—A notation of any merchandise and other property on hand which has not been sold at the time of making the balance sheet.

**Examples** of resource inventories are:—Merchandise on hand listed at its cost price; Real Estate listed at its present value; any property on hand, besides that already cited, listed at its present value.

Resource inventories also include such things as unexpired insurance, unpaid rent due the business, etc.

**122. Liability Inventory:**—An amount owed which has not been placed on the books at the time of making a balance sheet.

**Examples** of liability inventories are:—Interest accrued on notes payable or outstanding accounts, unpaid freight, rent, salaries, insurance, etc. owed by the business.

## How to Make Out a Balance Sheet

**123.** Rule a sheet of blank paper similar to **Illustration No. 76**. Write the names of all accounts, appearing in the last trial balance, on the balance sheet. Write the amounts which represent these accounts in the first two columns, using the first column for the debits and the second column for the credits.

**124.** You will have the following inventories:—Real Estate, \$6300; Horse & Wagon, \$390; Furniture and Fixtures, \$55.57; Merchandise, \$1309.63.

**Note:**—Unless otherwise mentioned, all inventories given will be resource inventories.

Place these inventories to their respective accounts in the balance sheet. They will be written to the left of the first column. Use red ink. See **illustration No. 76**.

**125.** Real Estate, Horse and Wagon, Expense, Furniture and Fixtures, Freight, Interest, Discount, Merchandise, and similar accounts will show a loss or a gain. We will call all accounts which show a loss or a gain **Working Accounts**, in order to distinguish them from the accounts which do not show a loss or a gain.

**126.** How to find the **Loss or Gain** when a **Resource Inventory** is given. Add the inventory to the credit side of the account. If, after making this addition, the credit side is greater than the debit, the difference is a gain. If the credit side is smaller, the difference is a loss.

**127.** How to find the **Loss or Gain** when a **Liability Inventory** is given. Add the inventory to the debit side of the account. If, after making this addition, the credit side is greater than the debit, the difference is a gain. If the credit side is smaller, the difference is a loss.

**128.** How to find the **Loss or Gain** when both **Resource and Liability inventories** are given. Add the resource inventory to the credit side; add the liability inventory to the debit side. If, after making these additions, the credit side is greater than the debit, the difference is a gain. If the credit side is smaller, the difference is a loss.

**129.** How to find the **Loss or Gain** of a **Working Account** when no inventory is given. Add the credit side and the debit side. If the credit side is greater, the difference is a gain. If the credit side is smaller, the difference is a loss.

**130.** You will now proceed to find the losses or gains of the different **Working Accounts** that appear in your balance sheet. (See **illustration No. 76**.)

**Be sure** to work out each one of the losses and gains.

**131.** If the sum of the **Gain** column is greater than the sum of the **Loss** column, the difference is a **Net Gain**. If the **Loss** column is greater the difference is a **Net Loss**.

**132.** Accounts which do not come under the heading of **Working Accounts** are known as **Financial Accounts**.

A **Financial Account** which does not balance (have its debit side equal to its credit side), will show either a resource or a liability.

133. **A Resource:**—Property of any kind on hand.

**Note:**—The names of the accounts generally indicate the kinds of property.

**Examples:**—Cash, Notes Receivable, Personal Accounts due the business. The resource inventories from any accounts are also classified as **Resources**.

134. **A Liability:**—Debts owed by the business.

**Examples:**—Personal Accounts owed by the business and Notes Payable. The liability inventories from any account are also classified as **Liabilities**.

135. When the debit side of a **Financial Account** is larger than the credit, the difference is a **Resource**, and must be placed in the **Resource** column.

136. When the credit side of a **Financial Account** is larger than the debit, the difference is a **Liability**, and must be placed in the **Liabilities** column.

137. You will now extend into the **Resource** and **Liability** columns the different amounts which affect them.

**Note:**—Be careful to place the amounts directly opposite the accounts which they affect.

138. The proprietor's account is a **Financial Account**, and since the credit side is always greater than the debit, it will show a **Liability**. The balance from the proprietor's account is never extended into the **Liability** column until the **Net Gain** or **Net Loss** has been ascertained. After this net gain is added to or the net loss subtracted from the proprietor's account, it is placed in the **Liability** column, and represents the **Present Worth** of the business.

After the **Present Worth** has been placed in the **Liability** column, the sum total of this column must equal the sum total of the **Resource** column.

Be sure that your **Balance Sheet** corresponds in figures and rulings to the **Balance Sheet** shown in illustration No. 76 as this is taken from your book Sept. 13, 19—.

## Closing Accounts in the Ledger

139. How to close Accounts showing a Loss or a Gain and not having an Inventory. Find the difference between the two sides and place it on the smaller side in red ink. If the debit side is smaller, place the difference on this side together with the word **Gain**. See illustration No. 77a. If the credit side is smaller, place the difference on this side together with the word **Loss**. See illustration No. 77b. Rule the account in red ink and bring down the totals of the debit and credit sides. These totals will be equal. See illustrations Nos. 77a and 77b.

Illustration No. 77a.

149. You will discount, today, the note received Sept. 11, 19—, from H. J. Root. (See paragraph 109 for data. Be sure to read paragraph 29.)

September 19, 19—

150. You will make out a note in favor of Wm. T. Hummer for his invoice of Sept. 16, 19—. Date the note Sept. 16, 19—, and make it for 30 days.

151. You sell to H. J. Root, 21 Platt St., Baltimore, Md.:—96 pairs # 1 Squabs @  $64c$ ; 55 pairs # 2 Squabs @  $49c$ . Terms 2/10—net 30.

You sell to H. J. Root, 21 Platt St., Baltimore, Md.:—25 # Lard @  $18c$ ; 75 doz. # 1 Eggs @  $25c$ ; 25 bu. Old Potatoes @  $89c$ . Terms draft at 30 days sight.

September 22, 19—

152. You sell to O. T. House, 120 Philadelphia St., New Oxford, Pa., 2 boxes Oranges @  $\$3.10\frac{1}{4}$ . Terms 2/10—net 30.

You sell to O. A. Messenger, 32 Filbert St., Washington, D. C., 16 crates # 1 Eggs @  $25c$ . Terms sight draft.

You sell to W. Wright & Co., Hanover, Pa., 30 Grape Fruits @  $13\frac{2}{3}c$ . Terms cash.

153. You discount, today, the note which you issued, in favor of S. G. Cella. The amount of this note is  $\$35.75$ . See paragraph 71 for other data. Be sure to read paragraph 26.

September 23, 19—

154. You buy from A. C. Lutz, Melrose, Md., 2375 # Lard @  $9\frac{2}{5}c$ . Terms sight draft.

You buy from S. B. Tenner, 48 High St., Columbia, Pa., 3 tubs R. Lard, 500 # @  $10c$ . Terms draft at 30 days after date.

155. You receive from Mann & Mann a check in payment of the merchandise sold them September 17, 19—. Do not forget to deduct the Merchandise Discount.

You receive from C. A. Gregg a check in payment of the Merchandise sold him September 17, 19—. Do not forget to deduct the Merchandise Discount.

156. You will draw a sight draft on O. A. Messenger for the merchandise sold him September 22, 19—. For form of sight draft see illustration No. 27a.

Note:—In actual business this draft must be presented to O. A. Messenger. No entry will be made for this draft until O. A. Messenger pays it.

September 24, 19—.

157. You sell to James Hecker, 382 Market St., Lancaster, Pa.:—50 bu. Old Potatoes @ 90c; 10 bu. New Potatoes @ \$1.15. Terms note.

You sell to R. A. Cates & Sons, 106 Maine St., McSherrystown, Pa.:—900 # Lard @ 18¾c; 20 bunches Bananas @ 71½c. Terms 3/10—2/30.

158. You receive from W. Wright & Co., a check in payment of the merchandise sold them September 22, 19—.

September 25, 19—.

159. You have been notified by your bank that A. C. Lutz has drawn a sight draft on you for \$223.25. This draft was drawn in payment of the merchandise which you bought from Lutz September 23, 19—. You will now issue a check in favor of your bank (Student's Bank), in payment of this draft. As the bank is acting as your agent, they will pay this amount to Lutz for you. Be sure to read paragraph 37. For entry see illustration No. 33.

September 26, 19—

160. You buy from J. H. Love & Co., Meriden, Pa., the following merchandise:—84 bunches Bananas @ \$1.39½; 946 pairs # 1 Squabs @ 43¾c; 235 pairs # 2 Squabs @ 34c; 100 bu. New Potatoes @ \$1.08. Terms 2/10—note 30.

161. You receive from James Hecker, a note, for the merchandise sold him September 24, 19—. This note is dated September 24, 19—, and is given for 30 days. The amount is \$56.50. Be sure to read paragraph 79.

162. You will make out a check in favor of the Hanover Fire Insurance Co., for \$25.00.

Note:—You have had your merchandise insured and the \$25.00 is given in payment of the premium.

Statement:—Cash performs the service in that it brings into your business Insurance, therefore Insurance is the result. You will apply the rule to this statement in order to ascertain your entry.

Remember to keep an account for Insurance.

September 27, 19—.

163. You receive the money on the Hecker draft which is due today. The amount of this draft is \$135.46. Read paragraph 23.

164. Your bank collected the amount of the Hecker draft for you, and for doing so has charged you 25c.

Note:—The collecting of the money on notes, drafts, etc., is known as Collection and Exchange.

Statement:—Cash performs the service in that it secures for me Collection and Exchange, therefore Collection and Exchange is the result. You will apply the rule to this statement in order to ascertain your entry.

September 29, 19—

165. You sell to Mann & Mann, Cly, Pa.:—160 # C. Butter @ 29c; 312 doz. # 1 Eggs @ 25c; 22 doz. # 2 Eggs @ 19c. Terms draft 30 days after date.

166. S. B. Tenner has drawn a draft on you which you have accepted today.

The draft is dated September 29, 19—, and is given for thirty days after date. It is payable to the order of S. B. Tenner and is issued for \$150.00. You will make the entry for this draft.

Note:—After you accept the draft, it becomes a Note Payable to you.

**Statement:**—**Note Payable** performs a service for you in that it liquidates your indebtedness to S. B. Tenner, therefore the liquidation of S. B. Tenner's account is the result. Read paragraph 71 for application of rule and apply it to this statement.

167. You will now deposit all cash on hand. Following are the checks which you have received:—Mann and Mann, \$29.64; C. A. Gregg, \$17.80; W. Wright & Co., \$4.10.

**Note:**—Before making this deposit be sure to read paragraph 83.

168. You will now balance, rule and prove the **Cash Book**. Read paragraph 84.

If your cash book is correct, it will show a balance of \$2721.84.

169. If your check book is correct it will contain the following:—Balance Sept. 13, 19—, \$2760.85; Proceeds from H. J. Root note, \$58.17; Proceeds from James Hecker draft, \$135.21; Deposit \$51.54. Checks issued:—A. C. Lutz, \$223.25; Hanover Fire Insurance Co., \$25.00; Proceeds of note issued to S. G. Cella, deducted, \$35.68.

**Note:**—The **Check Book** balance will be the same as the **Cash Book** balance.

170. These are the correct balances for the following books:—Purchase, \$2625.19; Sales, \$686.02; Notes Payable, \$604.81; Notes Receivable, \$56.50.

**Note:**—Be sure to rule the different books mentioned in this paragraph.

171. Post all items from the different books into the **Ledger**. (This includes all items from Sept. 13, 19— to Sept. 30, 19—.)

Be sure to post all totals.

172. You will now take a **Trial Balance**, and make out a **Balance Sheet**.

The inventories for the **Balance Sheet** are as follows: Real Estate, \$6615.00; Horse and Wagon, \$385.00; Furniture and Fixtures, \$54.00; Merchandise, \$3436.05; Insurance \$24.00.

**Note:**—If your **Balance Sheet** is correct, it will show the following results: Total of **Loss** column, \$8.78; Total of **Gain** column, \$502.39; **Net Gain** \$493.61; Total of **Resource** column, \$13914.91.; Total of **Liability** column, before **Present Worth** is added, \$4752.56; **Present Worth**, \$9162.35.

173. You will now close all accounts in the **Ledger**.

## In General

174. The rule for determining whether an item shall be debited or credited, together with the instructions, etc., set forth in this work, are applicable to every different kind of transaction. It is therefore possible to take the transactions from any other work and, by applying the methods used in **Simplified Bookkeeping**, construct a set of books correctly.
